as a building materials supplier!*

Our Product Line

Our product line is all American made and is specific to the following areas:

- ⇒ Drywall
- ⇒ Electrical
- ⇒ Plumbing
- ⇒ Brick
- ⇒ HVAC
- ⇒ Roofing
- ⇒ Lumber
- ⇒ REBAR
- ⇒ Construction Site/Office Supplies

We work hard to be the supplier of choice. We see our customers as our family and neighbors. We're proud to be active participants in community service projects that make strong and vibrant places to live. We use environmentally friendly products whenever possible, meet or exceed environmental regulations, and we always try to respond to our customer's environmental needs.

Product Overview

Drywall ~

We supply 48" or 54" wide drywall panels in varying lengths to suit the application. Panel thicknesses are $\frac{1}{2}$ -inch (13 mm) and $\frac{5}{8}$ -inch (16 mm), with panels also available in $\frac{1}{4}$ -inch (6.4 mm) and $\frac{3}{8}$ -inch (9.5 mm). We also supply all standard drywall tools and drywall supply's.

Electrical ~

Our electrical supply's include a vast inventory to suit your project needs. Electrical equipment is vital to every job site. From conduits to electrical boxes, lighting controls and lighting systems to plugs and receptacles, fasteners, fittings, switches and fuses we have you covered. We do not supply Transformers.

Plumbing ~

Our plumbing supplies primarily include the following: pipes, drains fittings, valves, valve assemblies, tubing and plumbing fixtures. All our products are non-toxic and are made of copper, brass, plastic (PEX).

Brick ~

Our brick inventory is comprised of commercial and residential brick, types being Face , Thin, and Structural Brick. Whatever your brick specifications, we can meet your needs.

HVAC ~

We specialize in all the heating and air conditioning systems and supplies you need at one convenient source. We supply a full line of products including duct & sheet metal supplies, insulation, piping, controls and equipment from quality brands.

Product Overview (cont.)

Lumber ~

Our Lumber supply consists of finished lumber in standard sizes. We supply the North American softwood dimensional lumber sizes of *two-bys* (2×4s, 2×6s, 2×8s, 2×10s, and 2×12s), along with the 4×4.

REBAR ~

Our Reinforcement Steel (REBAR), is supplied in standard US sizes. Depending on your project requirements we can supply common rebar is made of unfinished [tempered steel](#), to [epoxy-coated](#), [galvanized](#) or [stainless steel](#) rebars, as well as [fiber-reinforced polymer](#) rebar. We do not sell rebar tools.

Roofing ~

Roofing is not just shingles, and we supply both residential and commercial projects. Shingles include wood, asphalt , fiberglass, tile and slate. Other suppliers include roofing cements and gutters.

Construction Site Supplies ~

Need hard hats, aprons, work gloves, safety glasses, or any other construction site supplies, we got them. Just let us know what you need.

Supplying all your roofing needs...
